PROFESSIONAL SUMMARY

I am a full stack software engineer based in Brooklyn who is committed to making a positive impact. At my root, I am a builder and creator. I am a self starter, an autodidact, and someone who is addicted to challenge. I try my best to be a helper wherever I go - learning everything I can, so that I can add value wherever I am.

TECHNICAL SKILLS

HTML | JavaScript | CSS | SQL | Git | Github | Ruby | Rails | React.js | Storybook | Node | Express.js | MERN | REST API | Postman | MongoDB | Adobe XD, Photoshop | Jest | Enzyme

OTHER SKILLS

10 years Spanish Studies | Product & Furniture Design | Project Management | Studio Photography |

EXPERIENCE | PROJECTS DEPLOYED

COVIDATA | Front-End Application

Software Engineer   **2020**
- HTML, CSS, JS, Johns Hopkins API, News API, ProPublica Senator API
- COVIDATA was designed to serve as an online hub for the latest developments around the COVID-19 pandemic in the United States
